Contents of Volume 20

Number 1

A.J. Cristóvão, C.R. Oliveira and C.M. Carvalho	1	Expression of AMPA/kainate receptors during development of chick embryo retina cells: in vitro versus in vivo studies
P.M.M. Torres, C.V.V. Guilarducci, A.S. Franco and E.G. de Araujo	11	Sciatic conditioned medium increases survival, proliferation and differentiation of retinal cells in culture
G. Sanches, L. Sá de Alencar and A.L.M. Ventura	21	ATP induces proliferation of retinal cells in culture via activation of PKC and extracellular signal-regulated kinase cascade
R. Schmidt-Kastner and C. Humpel	29	Nestin expression persists in astrocytes of organotypic slice cultures from rat cortex
K.L. Powell, K.I. Matthaei, K. Heydon and I.A. Hendry	39	$G_{Z\alpha}$ deficient mice: enzyme levels in the autonomic nervous system, neuronal survival and effect of genetic background
A.R. Del Angel-Meza, L. Ramírez-Cortes, I.G. Adame-González, I. González Burgos and C. Beas-Zárate	47	Cerebral GABA release and GAD activity in protein- and tryptophan-restricted rats during development
S.N. Kudoh, K. Kiyosue and T. Taguchi	55	A synaptic potentiation by a protein factor distinct from those induced by neurotrophins
D.S.Y. Leung, K. Unsicker and B. Reuss	63	Expression and developmental regulation of gap junction connexins cx26, cx32, cx43 and cx45 in the rat midbrain-floor
	I	Forthcoming papers

Number 2

E.L. Streck, A.I. Zugno, B. Tagliari, J.J.F. Sarkis, M. Wajner, C.M.D. Wannmacher and A.T.S. Wyse	77	On the mechanism of the inhibition of Na^+, K^+-ATPase activity caused by homocysteine
S. Arnhold, A. Faßbender, F.-J. Klinz, K. Kruttwig, B. Löhnig, C. Andressen and K. Addicks	83	NOS-II is involved in early differentiation of murine cortical, retinal and ES cell-derived neurons—an immunocytochemical and functional approach
K.Y. Ahn, K.I. Nam, B.Y. Kim, C.W. Cho, S.K. Jeong, K.J. Yang and K.K. Kim	93	Postnatal expression and distribution of Refsum disease gene associated protein in the rat retina and visual cortex: effect of binocular visual deprivation
R.E. Clark Jr., W. Keith Miskimins and R. Miskimins	103	Cyclic AMP inducibility of the myelin basic protein gene promoter requires the NF1 site
S. Wójcik, J. Dziewiątkowski, P. Kowiański, B. Ludkiewicz, H. Jagalska-Majewska and J. Moryś	113	Qualitative and quantitative study of the postnatal development of the rabbit claustrum
M. Stephan, R.H. Straub, T. Breivik, R. Pabst and S. von Hörsten	125	Postnatal maternal deprivation aggravates experimental autoimmune encephalomyelitis in adult Lewis rats: reversal by chronic imipramine treatment
	I	Forthcoming papers

Numbers 3–5

Special Issue
NICHD MENTAL RETARDATION RESEARCH CENTERS

J.R. Perez-Polo	133	Editorial for 20/3-5
M.J. Friedlander	135	University of Alabama at Birmingham Mental Retardation Research Center

L.-A. Coleman and M.J. Friedlander	137	Postnatal dendritic development of Y-like geniculocortical relay neurons
S.D. Fenster and C.C. Garner	161	Gene structure and genetic localization of the *PCLO* gene encoding the presynaptic active zone protein Piccolo
Y.Z. Huang, Q. Wang, S. Won, Z.G. Luo, W.C. Xiong and L. Mei	173	Compartmentalized NRG signaling and PDZ domain-containing proteins in synapse structure and function
E.E. Rodgers and A.B. Theibert	187	Functions of PI 3-kinase in development of the nervous system
M.E. McCutchen, C.R. Bramham and L.D. Pozzo-Miller	199	Modulation of neuronal calcium signaling by neurotrophic factors
Z.-C. Ye and H. Sontheimer	209	Modulation of glial glutamate transport through cell interactions with the extracellular matrix
M.W. Quick	219	Role of syntaxin 1A on serotonin transporter expression in developing thalamocortical neurons
L.E. Dobrunz	225	Release probability is regulated by the size of the readily releasable vesicle pool at excitatory synapses in hippocampus
A. Sedelnikova and D.S. Weiss	237	Phosphorylation of the recombinant ρ1 GABA receptor
P.O.J. Covernton and R.A.J. Lester	247	Prolonged stimulation of presynaptic nicotinic acetylcholine receptors in the rat interpeduncular nucleus has differential effects on transmitter release
R. Li, A. Messing, J.E. Goldman and M. Brenner	259	GFAP mutations in Alexander disease
K.D. Reilly	269	Agent computing themes in biologically inspired models of learning and development
J. de Vellis	287	The MRRC at the University of California (UCLA), Los Angeles, CA
C.J. Huang, R. Nazarian, J. Lee, P.M. Zhao, A. Espinosa-Jeffrey and J. de Vellis	289	Tumor necrosis factor modulates transcription of myelin basic protein gene through nuclear factor kappa B in a human oligodendroglioma cell line
L.S. Crnic	297	The Colorado mental retardation and developmental disabilities research center
S.F. Warren and P.D. Cheney	301	The Kansas Mental Retardation and Developmental Disabilities Research Center
S.C. Fowler, T.J. Zarcone, R. Chen, M.D. Taylor and D.E. Wright	303	Low grip strength, impaired tongue force and hyperactivity induced by overexpression of neurotrophin-3 in mouse skeletal muscle
S.C. Fowler, T.J. Zarcone, E. Vorontsova and R. Chen	309	Motor and associative deficits in D2 dopamine receptor knockout mice
P.S. Loupe, J.D. Bredemeier, S.R. Schroeder and R.E. Tessel	323	Dopamine re-uptake inhibitor GBR-12909 induction of aberrant behaviors in animal models of dopamine dysfunction
M. Denckla	335	Overview of the Mental Retardation Developmental Disabilities Research Center (MRDDRC) at Kennedy Krieger Institute (Johns Hopkins University School of Medicine)
J.J. Volpe	337	Mental Retardation Research Center at Boston Children's Hospital/Harvard Medical School. Introductory overview
F.E. Jensen	339	The role of glutamate receptor maturation in perinatal seizures and brain injury
M.M. Sobeih and G. Corfas	349	Extracellular factors that regulate neuronal migration in the central nervous system

J.N. Haslett and L.M. Kunkel	359	Microarray analysis of normal and dystrophic skeletal muscle
W.J. McIlvane	367	The E.K. Shriver Center at the University of Massachusetts Medical School
D.S. Faber	369	Rose F. Kennedy Center for Research in Mental Retardation and Developmental Disabilities
D.A. Siegel, M.K. Huang and S.F. Becker	373	Ectopic dendrite initiation: CNS pathogenesis as a model of CNS development
A.B. Johnson	391	Alexander disease: a review and the gene
J. Piven	395	Introduction to the Special Section Contribution of the UNC Neurodevelopmental Disorders Research Center (NDRC)
A.P. Barnes and S.L. Milgram	397	Signals from the X: signal transduction and X-linked mental retardation
T.M. Maynard, G.T. Haskell, J.A. Lieberman and A.-S. LaMantia	407	22q11 DS: genomic mechanisms and gene function in DiGeorge/velocardiofacial syndrome
H. Cody, K. Pelphrey and J. Piven	421	Structural and functional magnetic resonance imaging of autism
M. Yudkoff and M. Robinson	439	Mental Retardation Research Center: Children's Hospital of Philadelphia & University of Pennsylvania
S. Camarata	441	The Kennedy Center at Vanderbilt Univeristy
M.T. Harvey and C.H. Kennedy	443	Polysomnographic phenotypes in developmental disabilities
L.M. Henderson, P.J. Yoder, M.E. Yale and A. McDuffie	449	Getting the point: electrophysiological correlates of protodeclarative pointing
S. Camarata and P. Yoder	459	Language transactions during development and intervention: theoretical implications for developmental neuroscience
H.Y. Zoghbi and D. Nelson	467	Scientific and technological synergy: Baylor College of Medicine and the Mental Retardation Research Center
M.J. Guralnick	469	University of Washington. Center on Human Development and Disability
M.M. Seltzer	471	Waisman Center
	I	Forthcoming papers

Number 6

Review		
S. Geuna, P. Borrione and G. Filogamo	475	Postnatal histogenesis in the peripheral nervous system
Regular papers		
A. Nishimura, C.F. Hohmann, M.V. Johnston and M.E. Blue	481	Neonatal electrolytic lesions of the basal forebrain stunt plasticity in mouse barrel field cortex
N.S. Raji, T. Hari Krishna and K.S. Rao	491	DNA-polymerase α, β, δ and ε activities in isolated neuronal and astroglial cell fractions from developing and aging rat cerebral cortex
G. Gutiérrez-Ospina, G. Manjarrez-Gutiérrez, C. González, S. López, R. Herrera, I. Medina-Aguirre and J. Hernández-R	497	Neither increased nor decreased availability of cortical serotonin (5HT) disturbs barrel field formation in isocaloric undernourished rat pups
L.A. Miranda, P.H. Strobl-Mazzulla and G.M. Somoza	503	Ontogenetic development and neuroanatomical localization of growth hormone-releasing hormone (GHRH) in the brain and pituitary gland of pejerrey fish *Odontesthes bonariensis*

J.S. Moon, J.J. Kim, I.Y. Chang, Y.Y. Chung, J.Y. Jun, H.J. You and S.P. Yoon 511 Postnatal development of parvalbumin and calbindin D-28k immunoreactivities in the canine anterior cingulate cortex: transient expression in layer V pyramidal cells

K.-W. Lee, H.-J. Kim, J.-J. Sung, K.-S. Park and M. Kim 521 Defective neurite outgrowth in aphidicolin/cAMP-induced motor neurons expressing mutant Cu/Zn superoxide dismutase

I Forthcoming papers

Number 7

Regular papers

B. Klementiev, N. Bichevaja, T. Novikova, N. Chebotar, E. Bock and V. Berezin 527 A peptide agonist of the neural cell adhesion molecule (NCAM), C3, protects against developmental defects induced by a teratogen pyrimethamine

H.M. Sobkowicz, B.K. August and S.M. Slapnick 537 Influence of neurotrophins on the synaptogenesis of inner hair cells in the deaf Bronx waltzer (bv) mouse organ of Corti in culture

T. Ikeda, H. Koo, Y.X. Xia, T. Ikenoue and B.H. Choi 555 Bimodal upregulation of glial cell line-derived neurotrophic factor (GDNF) in the neonatal rat brain following ischemic/hypoxic injury

C.B.N. Mendes de Aguiar, R.C. Garcez, M. Alvarez-Silva and A.G. Trentin 563 Undersulfation of proteoglycans and proteins alter C6 glioma cells proliferation, adhesion and extracellular matrix organization

B. Kablar and M.A. Rudnicki 573 Information provided by the skeletal muscle and associated neurons is necessary for proper brain development

I Forthcoming papers

III Announcement

V Announcement

Number 8

Regular papers

M. Omar Faison, E.F. Perozzi, N. Caran, J.K. Stewart and R.M. Tombes 585 Axonal localization of delta Ca^{2+}/calmodulin-dependent protein kinase II in developing P19 neurons

L. Zhang and M.S. Lidow 593 D1 dopamine receptor regulation of cell cycle in FGF- and EGF-supported primary cultures of embryonic cerebral cortical precursor cells

S. Cubillos, F. Fazzino and L. Lima 607 Medium requirements for neuritic outgrowth from goldfish retinal explants and the trophic effect of taurine

G.S. Sohal, M.M. Ali and F.A. Farooqui 619 A second source of precursor cells for the developing enteric nervous system and interstitial cells of Cajal

O. Ramírez and E. Jiménez 627 Sexual dimorphism in rat cerebrum and cerebellum: different patterns of catalytically active creatine kinase isoenzymes during postnatal development and aging

I Forthcoming papers

III Volume Contents, Author and Keyword Index
